

Teacher Quality Meeting

October 25, 2007

3:30-4:00

Meeting called to order at 3:30 p.m.

Members present: Ashley Dirks, Becky Spragg, Barb Kady, Marlin Lode

Discussion: Sioux Central sent a letter about the 2007-2008 Teacher Quality compensation money. We reviewed the letter from Sioux Central. The letter will be presented to the board. This will not affect the 2007-2008 allocations. We have already negotiated how this money will be disbursed. We feel this is a legislation issue and that we do not have the authority to make the decisions on this issue.

Discussion: Dr. Lode brought some information about APL training. He feels this is a very beneficial professional development. The training is offered February 26, February 27, March 31, April 1, and April 2. We think that we should send at least 4 teachers this year to the training. Each year, we would send different teachers until the entire staff is trained. They also have training for para-educators.

Becky made a motion to try and send 4 teachers this year to the APL training, and use professional development allocations to pay for this training.

Barb Kady seconded. Motion carried.

Meeting adjourned at 4:00 p.m.
