

ROLE OF AND GUIDING PRINCIPLES FOR EMPLOYEES

This series of the board policy manual is devoted to the board's goals and objectives for employees in the performance of their jobs. Employees provide a variety of important services for the children of the school district community. They may be teaching or assisting in the classroom, working in the office, maintaining the facilities, driving or repairing the school buses, or cooking lunches. Each employee plays a vital role in providing an equal opportunity for a quality education for students. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees will promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the board's goal is to obtain and retain qualified and effective employees. The board will have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district's standards of acceptable performance. It is the responsibility of the superintendent to make recommendations to the board in these areas prior to board action. The board recognizes its duty to bargain collectively with duly certified collective bargaining units.

Board policies in this series relating to general employees will apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees will apply to positions that require a teaching license or administrator's certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy or a more specific policy is in the 300 series, Administration. Classified employees' policies included in this series will apply to positions that do not fall within the definition of licensed employee.

EQUAL EMPLOYMENT OPPORTUNITY

The Albert City-Truesdale Community School District will provide equal opportunity to employees and applicants for employment in accordance with applicable equal employment opportunity and affirmative action laws, directives and regulations of federal, state and local governing bodies. Opportunity to all employees and applicants for employment includes hiring, placement, promotion, transfer or demotion, recruitment, advertising or solicitation for employment, treatment during employment, rates of pay or other forms of compensation, and layoff or termination. The school district will take affirmative action in major job categories where women, men, minorities and persons with disabilities are underrepresented. Employees will support and comply with the district's established equal employment opportunity and affirmative action policies. Employees will be given notice of this policy annually.

The board will appoint an affirmative action coordinator. The affirmative action coordinator will have the responsibility for drafting the affirmative action plan. The affirmative action plan will be reviewed by the board at least every two years.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and Iowa Department of Education for the position for which they apply. In employing individuals, the board will consider the qualifications, credentials, and records of the applicants without regard to race, color, creed, sex, national origin, religion, age, sexual orientation, gender identity or disability. In keeping with the law, the board will consider the veteran status of applicants.

Prior to a final offer of employment for any teaching position the school district will perform the background checks required by law. The district may determine on a case-by-case basis that, based on the duties, other positions within the district will also require background checks. Based upon the results of the background checks, the school district will determine whether an offer will be extended. If the candidate is a teacher who has an initial license from the BOEE, then the requirement for a background check is waived.

Advertisements and notices for vacancies within the district will contain the following statement: "The Albert City-Truesdale Community School District is an EEO/AA employer." The statement will also appear on application forms.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, will be directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Albert City-Truesdale Community School District, 300 Orchard St., Albert City, Iowa 50510; or by telephoning 712-843-5416.

EQUAL EMPLOYMENT OPPORTUNITY

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, Wisconsin, 53203-2292, (414) 291-1111 or the Iowa Civil Rights Commission, 400 E. 14th Street, Des Moines, Iowa, 50319-1004, (515) 281-4121 or 1-800-457-4416, <http://www.state.ia.us/government/crc/index.html>. This inquiry or complaint to the federal office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain is considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may, upon five days notice, require the employee to cease such solicitations as a condition of continued employment.

Employees will not act as an agent or dealer for the sale of textbooks or other school ~~supplies~~ supply companies doing business with the school district. Employees will not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees will not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It will also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist will include, but not be limited to, any of the following:

- (1) The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
- (2) The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.
- (3) The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment of or activity. If the activity or employment falls under (3), then the employee must:

EMPLOYEE CONFLICT OF INTEREST

- Cease the outside employment or activity; or,
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

It is the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

EMPLOYEE RECORDS

The school district will maintain personnel records on employees. The records are important for the daily administration of the educational program, for implementing board policy, for budget and financial planning, and for meeting state and federal requirements.

The records will include, but not be limited to, records necessary for the daily administration of the school district, salary records, evaluations, application for employment, references, and other items needed to carry out board policy. Employee personnel files are school district records and are considered confidential records and therefore are not generally open to public inspection or accessibility. Only in certain limited instances, when the employee has given a signed consent, will employee personnel records be accessible to individuals other than the employee or authorized school officials.

Employees may have access to their personnel files, with the exception of letters of reference, and copy items from their personnel files at a time mutually agreed upon between the superintendent and the employee. The school district may charge a reasonable fee for each copy made. However, employees will not be allowed access to the employment references written on behalf of the employee. Board members will generally only have access to an employee's file when it is necessary because of an employee related matter before the board.

It is the responsibility of the superintendent to keep employees' personnel files current. The board secretary is the custodian of employee records.

It is the responsibility of the superintendent to develop administrative regulations for the implementation of this policy.

CHILD ABUSE REPORTING REGULATION

Iowa law requires licensed employees to report to the Iowa Department of Human Services (DHS) instances of suspected child abuse which they become aware of within the scope of their professional duties.

The law further specifies that a licensed employee who knowingly or willfully fails to report a suspected case of child abuse is guilty of a simple misdemeanor and that the licensed employee may be subject to civil liability for damages caused by the failure to report.

Employees participating in good faith in the making of a report or in a judicial proceeding that may result from the report, are immune from liability.

Child Abuse Defined

"Child abuse" is defined as:

- Any nonaccidental physical injury, or injury which is at variance with the history given of it, suffered by a child as the result of the acts or omissions of a person responsible for the care of the child.
- The commission of a sexual offense with or to a child . . . as a result of the acts or omissions of the person responsible for the child. . . . Sexual offense includes sexual abuse, incest, and sexual exploitation of a minor.
- The failure on the part of a person responsible for the care of a child to provide for the adequate food, shelter, clothing or other care necessary for the child's welfare when financially able to do so. A parent or guardian legitimately practicing religious beliefs who does not provide specified medical treatment for a child for that reason alone will not be considered abusing the child
- The acts or omissions of a person responsible for the care of a child which allow, permit or encourage the child to engage in acts prohibited pursuant to *Iowa Code*, section 725.1 which deals with prostitution.
- Any mental injury to a child's intellectual or psychological capacities evidenced by an observable and substantial impairment in the child's ability to function within the child's normal range of performance and behavior as the result of the acts or omissions of a person responsible for the care of the child, if the impairment is diagnosed by a licensed physician or qualified mental health professional
- An illegal drug is present in a child's body as a direct and foreseeable consequence of the acts or omissions of the person responsible for the care of the child.

Teachers in public schools are not "persons responsible for the care of the child" under this definition. However, a teacher who abuses a child is subject to civil, criminal, and professional sanctions.

CHILD ABUSE REPORTING REGULATION

Reporting Procedures

Licensed employees, including teachers and school nurses, are required to report, either orally or in writing, within twenty-four hours to the Iowa Department of Human Services (DHS) when the employee reasonably believes a child has suffered from abuse within the scope of employment. Within forty-eight hours of an oral report, a written report must be filed with DHS.

Each report should contain as much of the following information as can be obtained within the time limit. However, the law specifies a report will be considered valid even if it does not contain all of the following information:

- name, age, and home address of the child;
- name and home address of the parents, guardians or other persons believed to be responsible for the care of the child;
- the child's present whereabouts if not the same as the parent's or other person's home address;
- description of injuries, including evidence of previous injuries;
- name, age, and condition of other children in the same home;
- any other information considered helpful; and,
- name and address of the person making the report.

Board policy states it is not the responsibility of employees to prove that a child has been abused or neglected. Employees should not take it upon themselves to investigate the case or contact the family of the child. DHS is responsible for investigating the incident of alleged abuse.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES

Physical or sexual abuse of students, including inappropriate and intentional sexual behavior, by employees will not be tolerated. The definition of employees for the purpose of this policy includes not only those who work for pay but also those who are volunteers of the school district under the direction and control of the school district. Employees found in violation of this policy will be subject to disciplinary action up to and including discharge.

The school district will respond promptly to allegations of abuse of students by school district employees by investigating or arranging for the investigation of an allegation. The processing of a complaint or allegation will be handled confidentially to the maximum extent possible. Employees are required to assist in the investigation when requested to provide information and to maintain the confidentiality of the reporting and investigation process.

The school district has appointed a Level I investigator and alternate Level I investigator. The school district has also arranged for a trained, experienced professional to serve as the Level II investigator. The Level I investigator and alternate will be provided training in the conducting of an investigation at the expense of the school district. The names of the investigators are listed in the student handbook, published annually in the local newspaper and posted in all school facilities.

The superintendent is responsible for drafting administrative regulations to implement this policy.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

An individual who has knowledge an employee has physically or sexually abused a student may immediately report it to the Superintendent who is the school district's Level I investigator. "Employee" means one who works for pay or as a volunteer under the direction and control of the school district. The report is written, signed and witnessed by a person of majority age. The witness may be the Level I investigator. The reporter is the individual filing the report. The report will contain the following:

- The full name, address, and telephone number of the person filing.
- The full name, age, address, and telephone number, and attendance center of the student.
- The name and place of employment of the employee who allegedly committed the abuse.
- A concise statement of the facts surrounding the incident, including date, time, and place of occurrence, if known.
- A list of possible witnesses by name, if known.
- Names and locations of persons who examined, counseled or treated the student for the alleged abuse, including the dates on which those services were provided, if known.

Upon request, the Level I investigator may assist the reporter in completing the report. An incomplete report will not be rejected unless the missing information would render the investigation futile or impossible. An employee receiving a report of alleged abuse of a student by an employee will pass the report to the investigator and will keep the report confidential to the maximum extent possible. In performing the investigation, the investigator will have access to the educational records of the alleged student victim as well as access to the student for interviewing purposes.

In order for the school district to have jurisdiction over the acts and to constitute a violation of the law, acts of the employee must be alleged to have occurred on school grounds, on school time, at a school-sponsored activity, or in a school-related context. However, the student need not be a student in the school district. The student can be from another school district. To be investigable, the written report must include basic information showing that the victim of the alleged abuse is or was a student at the time of the incident, that the alleged act of the employee resulted in injury or otherwise meets the definition of abuse in these rules, and that the person responsible for the act is currently an employee. If the report is not investigable due to lack of jurisdiction, the investigator will dismiss the complaint and inform the reporter of other options available. Other options available to the reporter include contacting law enforcement authorities, private counsel, or the Board of Educational Examiners in the case of a licensed employee.

If the Level I investigator believes the student is in imminent danger if continued contact is permitted between the employee and the student, the Level I investigator may:

- temporarily remove the student from contact with the employee;
- temporarily remove the employee from service; or,
- take other appropriate action to ensure the student's safety.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

The Level I investigator will have access to the educational records of the student and access to the student for purposes of interviewing the student about the report.

Physical Abuse Allegations

When physical abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed.

The Level I investigator will use discretion in handling the information received regarding an investigation of abuse by an employee, and those persons involved in the investigation will not discuss information regarding the complaint outside the investigation. The entire investigative procedure will be thoroughly explained, including the confidential nature of the proceedings, to the student and other persons involved in the investigation.

Within five days of receipt of an investigable report, the Level I investigator will complete an informal investigation. The informal investigation will consist of interviews with the student, the employee and others who may have knowledge of the alleged incident. If the Level I investigator determines that the allegations in the report are founded and that immediate and professional investigation is necessary, the Level I investigator may defer further investigation and contact appropriate law enforcement officials, the student's parents and the person filing the report. Within fifteen days of receipt of the report, the Level I investigator will complete a written investigative report, unless the investigation was temporarily deferred.

The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
 - Contacting law enforcement officials.
 - Contacting private counsel for the purpose of filing a civil suit or complaint.
 - Filing a complaint with the board of educational examiners if the employee is a licensed employee.

The investigator will retain the original and provide a copy of the written investigative report to the school employee named in the report, the employee's supervisor and the student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident of abuse as defined in the rules took place between the student and employee. The Level I investigator does not make the determination of whether the use of physical contact was appropriate or whether any of the exceptions apply. That is the responsibility of the Level II investigator. Upon completion of the report, if the Level I investigator determines the allegations of physical abuse are founded and serious, the Level I investigator will notify law enforcement authorities. If the allegations are founded but the physical abuse is not of a serious nature, the Level I investigator will refer the case on to the Buena Vista County Sheriff, the Level II investigator.

The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation. The Level II investigative report will state the conclusion as to the occurrence of the alleged incident, the applicability of exceptions, the reason for the contact or force used, and recommendations regarding the need for further investigation. In determining the applicability of the exceptions or the reasonableness of the contact or force used, the Level II investigator will use the following definitions:

Physical abuse is non-accidental physical injury to the student as a result of the action of an employee. Injury occurs when evidence of it is still apparent at least twenty-four hours after its occurrence. The following do not constitute physical abuse, and no employee is prohibited from:

- a. Using reasonable and necessary force, not designed or intended to cause pain:
 - (1) To quell a disturbance or prevent an act that threatens physical harm to any person.
 - (2) To obtain possession of a weapon or other dangerous object within a pupil's control.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

- (3) For the purposes of self-defense or defense of others as provided for in Iowa Code § 704.3.
 - (4) For the protection of property as provided for in Iowa Code §§ 704.4, .5.
 - (5) To remove a disruptive pupil from class, or any area of school premises or from school-sponsored activities off school premises.
 - (6) To prevent a student from the self-infliction of harm.
 - (7) To protect the safety of others.
- b. Using incidental, minor, or reasonable physical contact to maintain order and control.

In determining the reasonableness of the contact or force used, the following factors are considered:

- a. The nature of the misconduct of the student, if any, precipitating the physical contact by the school employee.
- b. The size and physical condition of the student.
- c. The instrumentality used in making the physical contact.
- d. The motivation of the school employee in initiating the physical contact.
- e. The extent of injury to the student resulting from the physical contact.

"Reasonable force" is that force and no more which a reasonable person, in like circumstances, would judge to be necessary to prevent an injury or loss and can include deadly force if it is reasonable to believe that such force is necessary to avoid injury or risk to one's life or safety or the life or safety of another, or it is reasonable to believe that such force is necessary to resist a like force or threat.

Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

Sexual Abuse

Sexual abuse is defined as including sexual acts involving a student, acts that encourage the student to engage in prostitution, as well as inappropriate, intentional sexual behavior or sexual harassment by the employee toward a student. "Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature when:

1. Submission to the conduct is made either implicitly or explicitly a term or condition of the student's education or benefits;
2. Submission to or rejection of the conduct is used as the basis for academic decisions affecting that student; or
3. The conduct has the purpose or effect of substantially interfering with a student's academic performance by creating an intimidating, hostile or offensive education environment.

When sexual abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed. The designated investigator will not interview the school employee named in a report of sexual abuse until after a determination is made that jurisdiction exists, the alleged victim has been interviewed and a determination made that the investigation will not be deferred.

The investigator will notify the parent, guardian or legal custodian of a student in prekindergarten through grade six, of the date and time of the interview and of the right to be present or to see and hear the interview or send a representative in the parent's place. The Level I investigator will interview the student as soon as possible, but in no case later than five days from the receipt of a report or notice of the allegation of sexual abuse. The Level I investigator may record the interview electronically.

The Level I investigator will exercise discretion in the investigative process to preserve the privacy interests of the individuals involved. To the maximum extent possible, the investigator will maintain the confidentiality of the report.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident took place between the employee and the student. If the Level I investigator believes the employee committed a sex act with a student or sexually exploited a student, the Level I investigator will defer the Level I investigation and immediately notify law enforcement officials, the student's parents and the person filing the report.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

If the Level I investigator determines an incident occurred, while not an illegal sex act with a student or sexual exploitation of a student, but where the employee engaged in inappropriate, intentional sexual behavior, further investigation is warranted. If further investigation is warranted, the Level I investigator may proceed to interview the employee and other individuals who may have knowledge of the circumstances contained in the report. Prior to interviewing other individuals who may have knowledge of the circumstance contained in the report, the Level I investigator will provide notice of the impending interview of student witnesses or the student who is in prekindergarten through grade six, to their parent, guardian, or legal custodian, and may provide notice to the parent or guardian of older students, prior to interviewing those students. The Level I investigator shall, if founded, arrange for the Level II investigator to further investigate the allegations.

Within fifteen days of receipt of the report or notice of alleged sexual abuse, the Level I investigator will complete a written investigative report unless the investigation was temporarily deferred. The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the school employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
 - Contacting law enforcement officials.
 - Contacting private counsel for the purpose of filing a civil suit or complaint.
 - Filing a complaint with the board of educational examiners if the school employee is certificated.

The investigator will retain the original and provide a copy of the investigative report to the school employee named in the report, the school employee's supervisor and the named student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

If the allegations are founded, the Level I investigation will refer the case to the Level II investigator. The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation if necessary. The Level II investigative report will state conclusively as to the occurrence of the alleged incident, conclusively as to the nature of the sexual abuse and recommendations regarding the need for further investigation. Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude sexual abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint on behalf of the district after obtaining the superintendent's signature with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

In cases involving founded physical or sexual abuse by a licensed employee, the board will notify the Board of Educational Examiners. Information of unfounded abuse at Level I or Level II will not be kept in the employee's personnel file. If the Level I investigative report is founded but Level II is unfounded, then the Level I report is removed from the employee's permanent file.

It is the responsibility of the board to annually identify a Level I and Level II investigator. The board will also designate annually an alternate Level I investigator, preferably of the opposite sex of the designated Level I investigator, to whom reports may also be made. The names and telephone numbers of the Level I investigator and the alternate Level I investigator is included in employee handbooks, student handbooks, annually published in the local newspaper, and prominently displayed in all school buildings.

PUBLIC COMPLAINTS ABOUT EMPLOYEES

The board recognizes situations may arise in the operation of the school district which are of concern to parents and other members of the school district community. While constructive criticism is welcomed, the board desires to support its employees and their actions to free them from unnecessary, spiteful, or negative criticism and complaints that do not offer advice for improvement or change.

The board firmly believes concerns should be resolved at the lowest organizational level by those individuals closest to the concern. Whenever a complaint or concern is brought to the attention of the board it will be referred to the administration to be resolved. Prior to board action however, the following should be completed:

- (a) Matters concerning an individual student, teacher, or other employee should first be addressed to the teacher or employee.
- (b) Unsettled matters from (a) above or problems and questions about individual attendance centers should be addressed to the employee's building principal for licensed employees and the superintendent for classified employees.
- (c) Unsettled matters regarding licensed employees from (b) above or problems and questions concerning the school district should be directed to the superintendent.
- (d) If a matter cannot be settled satisfactorily by the superintendent, it may then be brought to the board. To bring a concern regarding an employee, the individual may notify the board president in writing, who may bring it to the attention of the entire board, or the item may be placed on the board agenda of a regularly scheduled board meeting in accordance with board policy 214.1.

It is within the discretion of the board to address complaints from the members of the school district community, and the board will only do so if they are in writing, signed, and the complainant has complied with this policy.

EMPLOYEE OUTSIDE EMPLOYMENT

The board believes the primary responsibility of employees is to the duties of their position within the school district as outlined in their job description. The board considers an employee's duties as part of a regular, full-time position as full-time employment. The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It is the responsibility of the superintendent to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

The board may request the employee to cease the outside employment as a condition of continued employment with the school district.

EMPLOYEE PHYSICAL EXAMINATIONS

Good health is important to job performance. Employees will present evidence of good health, in the form of a physical examination report, prior to their employment with the school district.

School bus drivers will present evidence of good health every other year in the form of a physical examination report unless otherwise required by law or medical opinion. Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations, when requested to do so, at the expense of the school district.

The cost of the initial examination will be paid by the district. The form indicating the employee is able to perform the duties for which the employee was hired must be returned prior to payment of salary. The cost of bus driver renewal physicals will be paid by the school district up to a maximum of \$50.00. The school district will provide the standard examination form to be completed by the personal physician of the employee. Employees identified as having reasonably anticipated contact with blood or infectious materials will receive the Hepatitis B vaccine or sign a written waiver stating that they will not take the vaccine.

It is the responsibility of the superintendent to write an exposure control plan to eliminate or minimize district occupational exposure to blood borne pathogens. The plan for designated employees will include, but not be limited to, scope and application, definitions, exposure control, methods of compliance, Hepatitis B vaccination and post exposure evaluation and follow-up, communication of hazards to employees, and record keeping.

The requirements stated in the master contract between employees in that certified collective bargaining unit and the board regarding physical examinations of such employees are followed.

EMPLOYEE INJURY ON THE JOB

When an employee becomes seriously injured on the job, the building principal will notify a member of the family, or an individual of close relationship, as soon as the building principal becomes aware of the injury.

If possible, an employee may administer emergency or minor first aid. An injured employee will be turned over to the care of the employee's family or qualified medical employees as quickly as possible. The school district is not responsible for medical treatment of an injured employee.

It is the responsibility of the employee injured on the job to inform the superintendent within twenty-four hours of the occurrence. It is the responsibility of the employee's immediate supervisor to file an accident report within twenty-four hours after the employee reported the injury.

It is the responsibility of the employee to file claims, such as workers' compensation, through the board secretary.

COMMUNICABLE DISEASES - EMPLOYEES

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission to students or other employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee's personal physician, a physician chosen by the school district or public health officials.

An employee who is at work and who has a communicable disease which creates a substantial risk of harm to a student, coworkers, or others at the workplace are encouraged to report the condition to the Superintendent any time the employee is aware that the disease actively creates such risk.

Health data of an employee is confidential and it will not be disclosed to third parties. Employee medical records are kept in a file separate from their personal file.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

HEPATITIS B VACCINE INFORMATION AND RECORD

The Disease

Hepatitis B is a viral infection caused by the Hepatitis B virus (HBV) which causes death in 1-2% of those infected. Most people with HBV recover completely, but approximately 5-10% become chronic carriers of the virus. Most of these people have no symptoms, but can continue to transmit the disease to others. Some may develop chronic active hepatitis and cirrhosis. HBV may be a causative factor in the development of liver cancer. Immunization against HBV can prevent acute hepatitis and its complications.

The Vaccine

The HBV vaccine is produced from yeast cells. It has been extensively tested for safety and effectiveness in large scale clinical trials.

Approximately 90 percent of healthy people who receive two doses of the vaccine and a third dose as a booster achieve high levels of surface antibody (anti-HBs) and protection against the virus. The HBV vaccine is recommended for workers with potential for contact with blood or body fluids. Full immunization requires three doses of the vaccine over a six-month period, although some persons may not develop immunity even after three doses.

There is no evidence that the vaccine has ever caused Hepatitis B. However, persons who have been infected with HBV prior to receiving the vaccine may go on to develop clinical hepatitis in spite of immunization.

Dosage and Administration

The vaccine is given in three intramuscular doses in the deltoid muscle. Two initial doses are given one month apart and the third dose is given six months after the first.

Possible Vaccine Side Effects

The incidence of side effects is very low. No serious side effects have been reported with the vaccine. Ten to 20 percent of persons experience tenderness and redness at the site of injection and low grade fever. Rash, nausea, joint pain, and mild fatigue have also been reported. The possibility exists that other side effects may be identified with more extensive use.

HEPATITIS B VACCINE INFORMATION AND RECORD

CONSENT OF HEPATITIS B VACCINATION

I have knowledge of Hepatitis B and the Hepatitis B vaccination. I have had an opportunity to ask questions of a qualified nurse or physician and understand the benefits and risks of Hepatitis B vaccination. I understand that I must have three doses of the vaccine to obtain immunity. However, as with all medical treatment, there is no guarantee that I will become immune or that I will not experience side effects from the vaccine. I give my consent to be vaccinated for Hepatitis B.

REFUSAL OF HEPATITIS B VACCINATION

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring the Hepatitis B virus infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine at no charge to myself. However, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with the Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

UNIVERSAL PRECAUTIONS REGULATION

Universal precautions (UP) are intended to prevent transmission of infection, as well as decrease the risk of exposure for employees and students. It is not currently possible to identify all infected individuals, thus precautions must be used with every individual. UP pertain to blood and other potentially infectious materials (OPIM) containing blood. These precautions do not apply to other body fluids and wastes (OBFW) such as saliva, sputum, feces, tears, nasal secretions, vomitus and urine unless blood is visible in the material. However, these OBFW can be sources of other infections and should be handled as if they are infectious. The single most important step in preventing exposure to and transmission of any infection is anticipating potential contact with infectious materials in routine as well as emergency situations. Based on the type of possible contact, employees and students should be prepared to use the appropriate precautions prior to the contact. Diligent and proper hand washing, the use of barriers, appropriate disposal of waste products and needles, and proper decontamination of spills are essential techniques of infection control. All individuals should respond to situations practicing UP followed by the activation of the school response team plan. Using common sense in the application of these measures will enhance protection of employees and students.

Hand Washing

Proper hand washing is crucial to preventing the spread of infection. Textured jewelry on the hands or wrists should be removed prior to washing and kept off until completion of the procedure and the hands are rewashed. Use of running water, lathering with soap and using friction to clean all hand surfaces is key. Rinse well with running water and dry hands with paper towels.

- Hands should be washed before physical contact with individuals and after contact is completed.
- Hands should be washed after contact with any used equipment.
- If hands (or other skin) come into contact with blood or body fluids, hands should be washed immediately before touching anything else.
- Hands should be washed whether gloves are worn or not and, if gloves are worn, after the gloves are removed.

Barriers

Barriers anticipated to be used at school include disposable gloves, absorbent materials and resuscitation devices. Their use is intended to reduce the risk of contact with blood and body fluids as well as to control the spread of infectious agents from individual to individual. Gloves should be worn when in contact with blood, OPIM or OBFW. Gloves should be removed without touching the outside and disposed of after each use.

UNIVERSAL PRECAUTIONS REGULATION

Disposal of Waste

Blood, OPIM, OBFW, used gloves, barriers and absorbent materials should be placed in a plastic bag and disposed of in the usual procedure. When the blood or OPIM is liquid, semi-liquid or caked with dried blood, it is not absorbed in materials, and is capable of releasing the substance if compressed, special disposal as regulated waste is required. A band-aid, towel, sanitary napkin or other absorbed waste that does not have the potential of releasing the waste if compressed would not be considered regulated waste. It is anticipated schools would only have regulated waste in the case of a severe incident. Needles, syringes and other sharp disposable objects should be placed in special puncture-proof containers and disposed of as regulated waste. Bodily wastes such as urine, vomitus or feces should be disposed of in the sanitary sewer system.

Clean up

Spills of blood and OPIM should be cleaned up immediately. The employee should:

- Wear gloves.
- Clean up the spill with paper towels or other absorbent material.
- Use a solution of one part household bleach to one hundred parts of water (1:100) or other EPA-approved disinfectant and use it to wash the area well.
- Dispose of gloves, soiled towels and other waste in a plastic bag.
- Clean and disinfect reusable supplies and equipment.

Laundry

Laundry with blood or OPIM should be handled as little as possible with a minimum of agitation. It should be bagged at the location. If it has the potential of releasing the substance when compacted, regulated waste guidelines should be followed. Employees who have contact with this laundry should wear protective barriers.

Exposure

An exposure to blood or OPIM through contact with broken skin, mucous membrane or by needle or sharp stick requires immediate washing, reporting and follow-up.

- Always wash the exposed area immediately with soap and water.
- If a mucous membrane splash (eye or mouth) or exposure of broken skin occurs, irrigate or wash the area thoroughly.
- If a cut or needle stick injury occurs, wash the area thoroughly with soap and water.

The exposure should be reported immediately, the parent or guardian is notified, and the person exposed contacts a physician for further health care.

HAZARDOUS CHEMICAL DISCLOSURE

The board authorizes the development of a comprehensive hazardous chemical communication program for the school district to disseminate information about hazardous chemicals in the workplace.

Each employee will annually review information about hazardous substances in the workplace. When a new employee is hired or transferred to a new position or work site, the information and training, if necessary, is included in the employee's orientation. When an additional hazardous substance enters the workplace, information about it is distributed to all employees, and training is conducted for the appropriate employees. The superintendent will maintain a file indicating which hazardous substances are present in the workplace and when training and information sessions take place.

Employees who will be instructing or otherwise working with students will disseminate information about the hazardous chemicals with which they will be working as part of the instructional program.

It is the responsibility of the superintendent to develop administrative regulations regarding this program.

POST-ACCIDENT DRUG AND ALCOHOL TESTING INSTRUCTIONS TO DRIVERS

1. Take action to maintain the safety and health of the persons being transported in the school vehicle.
2. Report the accident to the following person as soon as practicable following the accident and follow any directions given to the driver.

School district contact person: _____

School district telephone: _____

School district contact person home telephone: _____

3. Determine whether any of the following have occurred, and if so, post-accident drug and alcohol testing must be done.
 - a. A fatality, other than the driver, occurred.
 - b. The driver was cited **and** bodily injury occurred to a person who, as a result of the injury, required immediate medical treatment away from the scene of the accident.
 - c. The driver was cited **and** one or more motor vehicles incurred disabling damage as a result of the accident, requiring a vehicle to be transported away from the scene of the accident by a tow truck or other motor vehicle.
 - (1) "Disabling damage" is damage which precludes departure of a motor vehicle from the scene of the accident in its usual manner in daylight after simple repairs. It includes damage to motor vehicles that could have been driven, but would have been further damaged if so driven.
 - (2) "Disabling damage" excludes damage which can be remedied temporarily at the scene of the accident without special tools or parts:
 - a. Tire disablement without damage even if no spare tire is available.
 - b. Headlight or taillight damage.
 - c. Damage to turn signals, horn, or windshield wipers which make them inoperative.
4. Consume no alcohol for eight hours or prior to submitting to a post-accident alcohol test, whichever occurs first, following an accident meeting the criteria in "3" above.
5. Remain available to submit to a post-accident alcohol test within two hours and no later than eight hours after the accident.

POST-ACCIDENT DRUG AND ALCOHOL TESTING INSTRUCTIONS TO DRIVERS

6. Remain available to submit to a post-accident drug test as soon as possible after the accident and no later than 32 hours after the accident.

If possible, obtain copies of any alcohol and drug test results conducted by the law enforcement officer. DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- b. A positive drug test result on the primary sample requires the driver to be removed from performing a safety-sensitive function.
 - c.  - (1) Reasons exist to believe the driver may alter or substitute the specimen.
 - (2) The driver presents a specimen with a temperature outside the allowed range and does not provide an oral body temperature or the oral body temperature varies from the specimen provided.
 - (3) The last specimen provided by the driver was determined by the laboratory to not meet specific gravity and urine creatinine concentration criteria.
 - (4) The collection site person observes conduct of the driver to substitute or adulterate the specimen.
 - (5) The driver has previously been determined to have used a drug without medical authorization and the particular test is for follow-up testing upon or after return to duty.
 - c. Direct observation is approved by the supervisor of the collection site person or the designated school district representative. Non-medical personnel performing direct observation must be of the same gender as the driver.
5. Drug testing steps.
- a. The school district contact person makes arrangements with the collection site for the test.
 - b. Once the driver is notified to submit to a drug test, the driver must complete the Alcohol/Drug Test Notification Form and proceed immediately to the collection site. The collection site person contacts the school district contact person immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test.
 - c. Upon arrival, the driver must provide a photo identification. Repeated failure of the driver to produce a photo identification is considered insubordination as well as a refusal to test. The driver may require the collection site person to provide proof of identification.
 - d. The driver may keep his or her wallet but must remove any unnecessary outer garments, purses, briefcases and similar items at the request of the collection site person.
 - e. Immediately prior to providing a urine specimen, the driver must wash his or her hands.
 - f. The driver must then provide forty-five milliliters of urine and deliver it immediately to the collection site person.
 - (1) Drivers who cannot provide an adequate amount of urine receive instructions for drinking water and trying again.
 - (2) The drug test is stopped when the driver fails twice to provide an adequate amount of urine.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- (3) Failure to provide adequate urine is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate urine.
 - g. The specimen is kept in view of the driver and the collection site person.
 - h. Upon receipt of the specimen, the collection site person immediately, and in no event later than four minutes from the time of urination, measures the temperature of the specimen.
 - i. The driver may volunteer to have his or her oral temperature taken to provide evidence against alteration or substitution if there is some question about the temperature of the specimen.
 - j. The collection site person inspects the specimen for color and other signs of contaminants and notes any unusual findings in the remarks section of the chain of custody form.
 - k. Another specimen is required as soon as possible under direct observation if adulteration or substitution is suspected by the collection site person. Specimens suspected of adulteration or substitution are also sent to laboratory for testing.
 - l. The specimen is divided into the primary and the split specimen, sealed and labeled. The label is initialed by the driver.
 - m. The driver is required to read and sign the statement on the chain of custody form certifying the specimens are the driver's.
 - n. The collection site person is required to note on the chain of custody form any unusual behavior or appearance of the driver and any failure to cooperate.
 - o. The collection site person completes the chain of custody form and the driver signs the form indicating the collection is complete. Failure of the driver to sign the form after the drug test is not considered a refusal to test. However, the collection site person notifies the school district contact person and notes the driver's failure to sign on the form.
 - p. The specimens are packaged for shipping to the laboratory and are shipped immediately or placed in secure storage until they can be shipped.
6. Laboratory.
 - a. The laboratory used by the school district's drug and alcohol testing program is certified by the U.S. Department of Health and Human Services (DHHS). Certified laboratories meet the testing procedures, personnel and record keeping requirements of the law.
 - b. Upon arrival of the specimens at the laboratory, the split specimen is stored and the primary specimen is tested.
 - (1) A positive drug test result on the initial test of the primary specimen requires a confirmation drug test of the primary specimen.
 - (2) The split specimen is discarded if the primary specimen has a negative drug test result.
 7. Medical Review Officer (MRO).
 - a. The MRO may release drug testing records of a driver to unauthorized individuals only with the written consent of the driver.
 - b. The MRO keeps a record of negative drug test results and reports negative drug test results to the school district, usually within two working days.
 - c. The primary role of the MRO is to review and interpret positive drug test results to determine whether a legitimate explanation exists for the positive drug test result.
 - (1) After reviewing the chain of custody form and the laboratory drug test results, the MRO contacts the driver to discuss the positive drug test result prior to notifying the school district and to ask whether the driver requests a drug test of the split sample. The driver's request for a drug test of the split sample must be made within seventy-two hours of talking with the MRO.
 - (2) Upon request of the driver, the split specimen is sent to a second certified laboratory to test only for the drug found in the primary specimen.

- (3) The MRO contacts the school district contact person for assistance if the driver cannot be reached.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- (4) The school district contact person must confidentially inform the driver to contact the MRO.
 - (5) Upon contacting the driver, the school district contact person must inform the MRO that the driver was contacted.
 - (6) Drivers who cannot be contacted are placed on temporary medically unqualified status or medical leave.
 - d. The MRO may verify a positive drug test without talking to the driver if:
 - (1) The driver declines the opportunity to discuss the positive drug test.
 - (2) The driver fails to contact the MRO within five days after the school district contact person has contacted the driver.
 - (3) MRO verification of positive drug test results under these circumstances can be challenged by the driver if the driver presents the MRO with information documenting a serious illness, injury or other circumstances unavoidably preventing the driver from timely contacting the MRO. The MRO, based on this additional information, may find a legitimate explanation for the positive drug test result and declare the drug test negative.
 - e. The driver is notified of the drugs found in a positive drug test result by the MRO, the school district contact person or by certified mail to the driver's last known address.
 - f. The school district receives a written report of the negative and positive drug test results from the MRO.
- F. Substance Abuse Professional
1. A substance abuse evaluation by a substance abuse professional is the personal and financial responsibility of the driver as a condition of continued employment when a driver has:
 - (a) A positive drug test;
 - (b) A positive alcohol test of 0.04 alcohol concentration or greater; or
 - (c) Otherwise violates the drug and alcohol testing program policy, its supporting documents or the law.
 2. The substance abuse evaluation determines what assistance, if any, the driver needs in resolving problems with alcohol misuse and/or drug use.
 3. A list of available substance abuse professionals to provide assistance to bus drivers is available through the (employee assistance program/school district contact person).
- F. Pre-employment Testing.
1. Drivers will submit to a drug test if a job offer is made. The job offer is contingent upon:
 - a. A negative drug test result; and
 - b. A signed written statement authorizing former employers to release all information on the driver related to drugs and alcohol.
 2. Prior to allowing a driver to perform a safety-sensitive function, and no later than fourteen days after performing a safety-sensitive function, information must be obtained, or a good faith effort must have been made to obtain the information about the driver's drug and alcohol history.
 - a. The following information must be obtained about the driver for the two year period preceding the date of the application.
 - (1) Alcohol test result of 0.04 alcohol concentration or greater;
 - (2) Positive drug test results; and
 - (3) Refusals to be tested.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- b. The information must be obtained, or a good faith effort made to obtain, the information if the driver is currently performing and will continue to perform a safety-sensitive function.
 - c. The information must be obtained or a good faith effort made to obtain the information if the driver performed a safety-sensitive function and is no longer employed by the school district.
 - d. The information does not need to be obtained if the driver did not perform a safety-sensitive function and is no longer employed by the school district.
 - e. The school district may obtain information held by the prior employer for the two-year period preceding the date of application even if the information came from other employers.
 - f. A good faith effort requires the school district to request and hopefully receive, the information prior the driver driving and no later than fourteen days after first driving by taking the following steps:
 - (1) Obtain the driver's written consent immediately after a conditional employment offer is made.
 - (2) Send a completed consent for Release of Information signed by the driver to prior employers via certified mail.
 - (3) Contact the prior employers' drug and alcohol testing program managers about the status of the request if no response is received within reasonable period.
 - (4) Take appropriate action (i.e., follow-up with a SAP, terminate employment) if the information received, whether prior to or after the fourteen day period, requires.
 - (5) Document and maintain the documentation of the steps taken to obtain the information when it is not received or the prior employer refuses to submit the information.
- G. Random Testing.
1. Annually, ten percent of the average number of drivers are selected for random alcohol tests and fifty percent of the average number of drivers are selected for random drug tests.
 2. The drivers' identification numbers are selected by a scientific method giving each driver an equal chance to be selected.
 3. Random tests are unannounced and spread throughout the year.
 4. Drivers selected for **random alcohol testing** are notified just before, during or just after performing a safety-sensitive function. The school district documents why some, if any, drivers were selected but not notified.
 5. Drivers selected for **random drug testing** are notified at any time. The school district must document why some, if any, drivers were selected but not notified.
 6. Once the driver is notified of being selected for a random test, the driver must proceed immediately to the collection site. However, drivers performing a safety-sensitive function must safely stop and proceed to the collection site as soon as possible.
- H. Reasonable Suspicion Testing.
1. A driver may be required to submit to a reasonable suspicion **drug** test at any time.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

2. A driver may be required to submit to a reasonable suspicion **alcohol** test just before, during or just after the driver performs a safety-sensitive function or just before, during or just after the time the driver is required to be in compliance with the drug and alcohol testing program policy, its supporting documents or the law.
 - a. A reasonable suspicion alcohol test is performed within two hours and no later than eight hours of determining reasonable suspicion.
 - b. If the alcohol test is not given within two hours, the reasons for the delay must be documented.
 - c. If the alcohol test is not given within eight hours, attempts to test are stopped and the reason for not testing must be documented.
3. A reasonable suspicion test request is made by an employee who received training to determine reasonable suspicion. The reasons for the reasonable suspicion must be documented within twenty-four hours or prior to the release of the test results. If more than one employee trained to determine reasonable suspicion observes the driver, that employee must also document their reasons.

I. Post-accident Testing.

1. Drivers are subject to both post-accident drug and alcohol testing as soon as possible after an accident in which:
 - a. A fatality, other than the driver, occurred.
 - b. The driver was cited **and** bodily injury occurred to a person who, as a result of the injury, required immediate medical treatment away from the scene of the accident; or
 - c. The driver was cited **and** one or more motor vehicles incurred disabling damage as a result of the accident, requiring a motor vehicle to be transported away from the accident scene by a tow truck or other motor vehicle.
 - (1) "Disabling damage" is damage which precludes the departure of a motor vehicle from the scene of the accident in its usual manner in daylight after simple repairs. It includes damage to motor vehicles that could have been driven but would have been further damaged if so driven.
 - (2) "Disabling damage" excludes damage which can be remedied temporarily at the scene of the accident without special tools or parts.
 - (a) Tire disablement without other damage even if no spare tire is available.
 - (b) Headlight or taillight damage.
 - (c) Damage to turn signals, horn, or windshield wipers which make them inoperative.
2. Drivers must remain readily available for post-accident testing.
 - a. Drivers who leave the scene or who do not remain readily available are deemed to have refused to test.
 - b. Necessary medical treatment cannot and should not be denied to a driver waiting to complete post-accident drug and alcohol tests.
3. Alcohol testing requirements.
 - a. The alcohol test is administered within two hours and no later than eight hours of the accident.
 - b. The reasons for administering the test later than two hours after the accident must be documented.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- c. The reasons for not administering the test within eight hours of the accident must be documented.
 - d. Drivers are prohibited from consuming alcohol for eight hours after the accident or until the alcohol test is completed.

 - 4. Drug testing requirements.
 - a. The drug test is administered as soon as possible and no later than 32 hours after the accident.
 - b. The reasons for not administering the test must be documented.

 - 5. Results of drug or alcohol testing conducted by law enforcement officers or other officials on the scene with independent authority to conduct such tests are presumed valid if the testing conforms to the law. The school district must receive a copy of the results to use them.
- J. Return-to-duty/Follow-up Testing.
- 1. Prior to returning to duty after a positive drug test, a positive alcohol test of 0.04 alcohol concentration or greater, or otherwise violating the drug and alcohol testing program policy, its supporting documents or the law, the driver bears the personal and financial responsibility to:
 - a. Be re-evaluated by a substance abuse professional to determine that the driver has properly followed any treatment program prescribed.
 - b. Submit to the tests required by the substance abuse professional. The substance abuse professional may require a return-to-duty test for drugs, alcohol or both.
 - c. Have a negative return-to duty drug test result and/or an alcohol test result of less than 0.02 alcohol concentration before the driver can return to duty and perform a safety-sensitive function.
 - 2. After returning to duty, the driver is subject to a minimum of six unannounced follow-up tests within twelve months for alcohol, drugs or both, as determined by the substance abuse professional.
 - a. The substance abuse professional can terminate the follow-up testing requirement after the first six tests have been completed or continue the follow-up testing for up to sixty months from the date of the driver's return to duty.
 - b. Alcohol follow-up testing is done just before, during or just after performing a safety-sensitive function.
 - c. Drug follow-up testing is done any time.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

J. School district responsibilities.

1. Provide drivers with information on the drug and alcohol testing requirements of the drug and alcohol testing program policy, its supporting documents and the law, including the driver's obligations.
2. Supervisors of drivers or employees designated to determine reasonable suspicion must receive sixty minutes of training on alcohol misuse and sixty minutes of training on drug use. The training must address the physical, behavioral, speech and performance indicators of probable alcohol misuse and drug use. The reasonable suspicion training certificate must be maintained by the school district until the employee leaves employment of the school district or is no longer authorized to make a reasonable suspicion determination.
3. Provide drivers with instructions prior to the driver operating a school vehicle to enable the driver to comply with the drug and alcohol testing requirements.
4. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver's drug use whether or not a drug test was conducted.
5. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver with 0.02 alcohol concentration or greater whether or not an alcohol test was conducted.
6. Ensure, through the school district's drug and alcohol testing program service provider, that the quality assurance plan, developed by the manufacturer and approved by the National Highway Traffic Safety Administration (NHTSA) for the evidentiary testing device or saliva alcohol testing device used for alcohol testing of its drivers, describes the inspection, maintenance and calibration requirements and intervals for the device.
7. Ensure, through the school district's drug and alcohol testing program service provider, that the collection site person using an evidentiary breath testing device is a certified breath alcohol technician (BAT).

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

8. Ensure, through the school district's drug and alcohol testing program service provider, that the collection site person using a saliva alcohol testing device is a certified BAT or saliva test technician (STT).
- K. Consequences of violating the drug and alcohol testing program policy, its supporting documents or the law.

Drivers, as a condition of continued employment, bear the personal and financial responsibility for undergoing a substance abuse evaluation to determine what assistance, if any, the driver needs in resolving problems associated with the misuse of alcohol or use of drugs and be required to follow any recommended substance abuse treatment program.
 - g. Prior to returning to duty, the driver is required to have a negative drug and/or alcohol test result and be subject to the follow-up drug and/or alcohol testing determined necessary based on the circumstances surrounding the incident.
 - h. Drivers refusing to submit to drug and/or alcohol testing are considered insubordinate and are subject to discipline up to and including termination.
 2. Canceled or invalid test - in drug testing it is a drug test that has been declared invalid by a Medical Review Officer or a specimen that has been rejected for testing by a laboratory. In alcohol testing it is a test that is deemed to be invalid under the law. A canceled drug test or alcohol test is neither a positive nor a negative test.

Chain of Custody - procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of specimen collection to final disposition of the specimen. With respect to drug testing, these procedures require that an appropriate drug testing custody form be used from time of collection to receipt by the laboratory and that upon receipt by the laboratory an appropriate laboratory chain of custody form(s) account(s) for the sample or sample aliquots within the laboratory.

Collection site - a place where drivers present themselves for the purpose of providing body fluid or a tissue sample to be analyzed for specific drugs or breath alcohol concentration.

Confirmation test - for alcohol testing it is a second test following a screening alcohol test with a result of 0.02 breath alcohol concentration or greater that provides quantitative data of breath alcohol concentration. For drug testing it is a second analytical procedure (GC/MS) to identify the presence of a specific drug or metabolite which is independent of the initial test and which uses a different technique and chemical principle from that of the initial test in order to ensure reliability and accuracy.

Controlled substances/Drugs - marijuana, cocaine, opiates, amphetamines and phencyclidine.

DRUG AND ALCOHOL TESTING PROGRAM DEFINITIONS

Driver - any person who operates a school vehicle. This includes, but is not limited to: full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to the school district or who operate a school vehicle at the direction of or with the consent of the school district. For the purposes of pre-employment/pre-duty testing only, the term "driver" includes applicants for drivers of school vehicle positions.

Initial test (or screening test) - in drug testing it is an immunoassay screen to eliminate "negative" urine specimens from further consideration. In alcohol testing it is an analytic procedure to determine whether a driver may have a prohibited concentration of alcohol in a breath or saliva specimen.

Medical review officer (MRO) - a licensed physician (medical doctor or doctor of osteopathy) responsible for receiving laboratory results generated by an employer's drug testing program who has knowledge of substance abuse disorders and has appropriate medical training to interpret and evaluate a driver's confirmed positive test result together with the driver's medical history and any other relevant bio-medical information.

Non-suspicion-based post-accident testing - testing of a driver after an accident without regard to whether there is any reasonable suspicion of drug usage, reasonable cause to believe the driver has been operating the school vehicle while under the influence of drugs, or reasonable cause to believe the driver was at fault in the accident and drug usage may have been a factor.

Performing a safety-sensitive function - a driver is considered to be performing a safety-sensitive function during any period in which the driver is actually performing, ready to perform, or immediately available to perform any safety-sensitive function.

Random Selection Process - when drug and alcohol tests are unannounced and every driver has an equal chance of being selected for testing.

Reasonable suspicion - when the school district believes the appearance, behavior, speech or body odors of the driver are indicative of the use of drugs or alcohol.

A refusal to test is treated as a positive drug test result or an alcohol test result of 0.04 alcohol concentration or greater.

Safety-sensitive function - all time from the time when a driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work.

Saliva test technician (STT) – an individual who has successfully completed U.S. DOT approved training for saliva alcohol testing who instructs and assists drivers in the initial (screening) alcohol testing process and operates a non-evidentiary breath testing or saliva testing device..

School vehicle - a vehicle owned, leased, and/or operated at the direction or with the consent of the school district which transports sixteen or more persons, including the driver, or weighs over twenty-six thousand one pounds and requires the driver to have/possess a commercial driver's license in order to operate the vehicle.

EMPLOYEE CONDUCT AND APPEARANCE

Employees are role models for the students who come in contact with them during and after school hours. The board recognizes the positive effect employees can have on students in this capacity. To this end, the board strongly suggests and encourages employees to dress themselves, groom themselves and conduct themselves in a manner appropriate to the educational environment.

Employees will conduct themselves in a professional manner. Employees will dress in attire appropriate for their position. Clothing should be neat, clean, and in good taste. Discretion and common sense call for an avoidance of extremes which would interfere with or have an effect on the educational process.

Licensed employees of the school district will follow the code of ethics for their profession as established by the Iowa Board of Educational Examiners.

Licensed employees, including administrators, are those employees required to hold an appropriate license from the Iowa Department of Education for their position as required by the Board of Educational Examiners or others with professional licenses. Licenses required for a position will be considered met if the employee meets the requirements established by the Iowa Department of Education.

It is the responsibility of the superintendent to establish job specifications and job descriptions for licensed employees' positions, other than the position of the superintendent. Job descriptions may be approved by the board.

Licensed employees must present evidence of current license to the board secretary prior to payment of salary each year.

LICENSED EMPLOYEE CONTINUING CONTRACTS

Contracts entered into with licensed employees, other than an administrator, will continue from year to year unless the contract states otherwise, is modified by mutual agreement between the board and the employee, or the contract is terminated by the board.

The first three years of a new licensed employee's contract is a probationary period unless the employee has already successfully completed the three year probationary period. New employees who have successfully completed a probationary period in a previous Iowa school district will serve a one year probationary period. In the event of termination of the employee's contract during this period, the board will afford the licensed employee appropriate due process. The action of the board will be final.

Licensed employees whose contracts will be recommended for termination by the board will receive notice prior to April 30. The superintendent will make a recommendation to the board for the termination of the licensed employee's contract.

Licensed employees who wish to resign, to be released from a contract, or to retire must comply with board policies in those areas.

LICENSED EMPLOYEE WORK DAY

The work day for licensed employees will begin each day of the school year at a time established by the superintendent. Licensed employees who are employed only during the academic year will have the same work day as other licensed employees. "Day" is defined as one work day regardless of full-time or part-time status of an employee.

Licensed employees are to be in their assigned school building during the work day. Advance approval to be absent from the school building must be obtained from the principal whenever the licensed employees must leave the school building during the work day.

The building principal is authorized to make changes in the work day in order to facilitate the education program. These changes are reported to the superintendent.

The work day outlined in this policy is a minimum work day. Nothing in this policy prohibits licensed employees from working additional hours outside the work day.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding work day of such employees will be followed.
