

1st Grade News by Mrs. Hallie Johnson

We have had a great year so far in 1st grade! Some of the students' favorites this year include: go-noodle time, math games, putting our desks together to make a flower shape, learning sign language and jokes!

The 1st graders have worked very hard to learn sign language this year. We've learned the alphabet, the Pledge of Allegiance, how to sign animal names, and a few basic conversation questions. They also have learned sign language to go along with songs they've worked on in music.

We've enjoyed our weekly friend readers coming in to read with us on Fridays, and we've been able to have friend readers with other grades a couple times as well.

We are doing a year-long box top challenge, and our class has earned rewards for collecting so many! Some of our rewards have been hot chocolate party, technology time, flashlight reading, and going to the imagination playground.

We are still looking forward to many fun times the rest of the school year, including a field trip in May!
